# Opening Our Eyes...

Our campus is full of interesting details, hidden in plain sight. For this year's cover we chose the theme "Opening Our Eyes." The cover shows twelve samples of objects or locations you can find around campus if you look closely. See how many you can identify, then visit our Web site, www.commserv.ucsb.edu, to find out where these views are really located. Have fun as you notice things around you in a new way.
